California offers help for startups and business relocations

16 [retweet](#) 1 [share](#)

Whether you're starting a business, looking to expand, or wondering about a particular policy or procedure, the Governor's Office of Economic Development provides resources and answers.

The California Business Investment Services (CalBIS) Unit provides no-fee, tailored site selection services to employers, corporate real estate executives, and site location consultants who are considering California for relocation and/or expansion.

Staff is available to help you identify the business advantages of considering California locations for business relocation and expansion. We offer a network of regional and local resources to gather essential information and discover which locations offer the most value for your project.

For general information call (877) 345-GOED or (916) 322-0694 or visit the Web site at www.business.ca.gov/StartaBusiness.aspx.
