CVEP

WHO WE ARE

Established in 1994, the Coachella Valley Economic Partnership (CVEP), a nonprofit organization, has emerged as a vital innovator of regional business development initiatives. CVEP services innovators and entrepreneurs at every stage of business – from incubation to launch to daily operation.

WHAT WE DO

Business Services

Helping Businesses Grow and Prosper

CVEP offers one-on-one consulting, access to capital, education programs, and support services to help your business thrive. Our free monthly speaker series, Morning Insights, features experts who can give you new insight into managing and marketing a profitable enterprise. The Coachella Valley Economic Summit is the premier business event of the year, features industry experts, and previews the release of our valley's Annual Economic Report.

Geographic Information Services (GIS)

Identify and Target Your Best Customers

Using the latest technology, we can help you to capture, analyze and manage data in order to profile and segment your customers, as well as help you to acquire and retain new ones.

The Innovation Hubs (iHubs)

Nurturing the Innovative Spirit

The Palm Desert and Palm Springs iHubs are business incubators for entrepreneurs. Funded by the cities in which they are located, and Wells Fargo, and managed by CVEP, they focus on early-stage businesses in the fields of renewable energy, health and medicine, and digital technology. They are a unique environment where entrepreneurs, investors, academics and government come together to collaborate, create, and grow.

INVEST IN CVEP.

INVEST IN OUR VALLEY'S FUTURE.

As businesses invest, grow, and engage in our community, all local industries, companies and residents can reap the benefits. CVEP and its partners are all working together to create a region with a diversified base of jobs and investment. For more information, and to invest, visit cvep.com or call 760.340.1575.
